SKILLS

- **Languages:** Python, Java, C, SQL
- **Technologies:** HTML, CSS
- **Databases/Tools:** MySQL, MongoDB, Git, GitHub, Figma, VS Code , Jupyter Notebook
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability, Leadership

PROJECTS

Personal Finance Management System | GitHub

Aug 2026

- **Engineered** a desktop-based personal finance management system using **Python and Tkinter** to efficiently record, manage, and analyze income and expense transactions.
- **Implemented SQLite-backed CRUD operations** with transaction search, editing, deletion, categorization, payment-method tracking, and persistent local data storage.
- **Developed** a monthly budget monitoring module featuring real-time expense calculations, remaining-budget tracking, progress visualization, and spending alerts.
- **Created** an interactive **financial analytics dashboard using Matplotlib** to visualize spending trends and generate actionable insights into financial behavior
- **Tech Stack:** Python, Tkinter, SQLite, and Matplotlib

Student Marks Analyzer | GitHub

Jan 2026

- **Developed** an interactive student performance dashboard using **Python and Streamlit** to analyze academic data efficiently.
- **Processed and analyzed** student marks using **Pandas**, generating meaningful performance insights and comparisons.
- **Designed** interactive visualizations and dashboard components to present student performance in a clear and user-friendly format.
- **Deployed** the dashboard publicly, enabling users to interactively explore and interpret student performance data.
- **Tech Stack:** Python, Pandas, Streamlit, and data visualization

Vitamin D analysis | GitHub

Dec 2025

- **Developed** a structured dataset covering **6 Indian states** to analyze regional variations in Vitamin D deficiency prevalence.
- **Cleaned and organized** the dataset using **Pandas**, ensuring accurate and consistent data for analysis.
- **Visualized** state-wise deficiency patterns through informative charts, enabling clear comparison of prevalence across regions..
- **Analyzed and interpreted** regional trends, identifying lifestyle and environmental factors associated with higher deficiency rates.
- **Tech Stack:** Python, Pandas, NumPy, and Matplotlib

CERTIFICATES

- Data Science| **Infosys**

Mar 2026
- Big Data | **Infosys**

Mar 2026
- Cybersecurity for Everyone | **Coursera**

Jan 2026

ACHIEVEMENTS

- **Head Girl:** Served as the Head Girl of my school, demonstrating leadership, responsibility, communication, and coordination skills.
- **Blue House Captain:** Served as the Blue House Captain, leading and coordinating students during various school activities and events.
- **Academic Achievement:** Received a prize for securing **91% in Class X (Matriculation)** in recognition of academic performance.

EDUCATION

Lovely Professional University
• *Bachelor of Technology - Computer Science and Engineering;*

Phagwara, Punjab
Aug 2025 - Present

Sacred Heart Convent Sr. Sec. School
Higher Secondary Education; Percentage: 89.4%

Sahnewal, Punjab
May 2024 - Mar 2025

Sacred Heart Convent Sr. Sec. School
• *Secondary Education; Percentage: 91 %*

Sahnewal, Punjab
Jun 2022 - Mar 2023
